

GLASS: Georgia Libraries for Accessible Statewide Services

A division of Georgia Public Library Service

GLASS supports accessible library services in Georgia by providing accessible reading materials to those who, due to a disability, are unable to read standard print. This includes:

- free library service, by mail, to qualified registered users
- access to thousands of digital books and many magazines available in audio and in braille, with thousands available for download
- loans of playback machines for use with recorded and digital material
- large print books and audio described DVDs
- free Bookshare accounts for registered users of all ages

To start taking advantage of the library services available through GLASS, read the eligibility requirements on page two, then complete and return the attached application for free library service. Please call or e-mail GLASS if you need additional information.

Eligibility of blind and other disabled persons for loan of library materials

The following people are eligible for service: residents of the United States, including territories, insular possessions, the District of Columbia, and American citizens living abroad.

1. Those people whose visual acuity, as determined by competent authority, is 20/200 or less in the better eye with correcting lenses, or whose widest diameter of visual field subtends an angular distance no greater than 20 degrees.
2. Those with physical disabilities are eligible as follows:
 - a. Persons whose visual impairment, with correction and regardless of optical measurement, is certified by competent authority as preventing the reading of regular printed material.
 - b. Persons certified by competent authority as unable to read or unable to use regular printed material because of physical limitations.
 - c. Persons certified by competent authority as having a reading disability resulting from organic dysfunction and of sufficient severity to prevent reading regular printed material in a conventional manner.

Certifying authority:

- In cases of blindness, visual or physical impairment, “competent authority” includes doctors of medicine; doctors of osteopathy; ophthalmologists; optometrists; registered nurses; therapists; and professional staff of hospitals, institutions, and public or private welfare agencies (e.g., social or case workers, counselors, rehabilitation teachers, and superintendents). In the absence of any of these, certification may be made by professional librarians or by any person whose competence under specific circumstances is acceptable to the Library of Congress.
- In the case of a reading disability from organic dysfunction, competent authority is defined as doctors of medicine and doctors of osteopathy who may consult with colleagues in associated disciplines.

To Be Completed by Certifying Authority:

I certify that the named applicant requesting library service is unable to read or use regular printed material for the reason indicated on this form.

Signature _____ Date _____

Please print or type:

Name _____ Title _____

Organization _____ E-mail _____

Address _____ Telephone _____

City _____ State _____ ZIP _____
